Summary

Graduate Engineer Trainee at **Kalypso, a Rockwell Automation business**, specializing in enterprise PLM data migration using **PTC Windchill, Python, SQL, and Windchill Bulk Migrator (WBM)**. **PTC Certified Windchill Implementation Practitioner** with hands-on experience designing and executing **ETL pipelines** for large-scale product lifecycle data migration while ensuring **data integrity, schema compliance and traceability**. Experienced in **data validation and CAD scanning** for a MedTech client project, with additional skills in **Java and Spring Boot** backend development. B.E. in Computer Science Engineering with a **CGPA of 9.0/10**.

Skills

PLM & Migration: PTC Windchill, WBM Loader (Windchill Bulk Migrator), WBMFF (CAD Scanning), ETL Pipelines, Data Migration, Data Validation, Field Mapping, PDMLink, MPMLink, Windchill Configuration and Customization (Basics)

Languages: Java, Python, SQL, C++, HTML and CSS

Databases: Oracle & MySQL

Frameworks: Spring Boot, Spring MVC, JPA, JDBC, IntelliJ IDEA, VS Code

Tools & DevOps: Azure DevOps, QuickBase, GitHub

Others: Data Structures & Algorithms, AI Tools, Machine Learning, Data Analysis & Visualization, REST APIs

Soft Skills: Quick Learner, Problem-solving abilities, Teamwork, Effective communication, Cross-functional Collaboration

Projects

PLM Data Migration Project | *Kalypso: A Rockwell Automation Business*

- Designed and implemented an automated **ETL pipeline** to extract, transform, and load enterprise product lifecycle data from legacy systems into **PTC Windchill** using **Python** and **SQL**, ensuring data integrity and traceability.
- Used **WBM Loader (Windchill Bulk Migrator)** for bulk loading of structured datasets with schema validation and cycle-wise reporting across migration releases.
- Loaded and validated Windchill **Parts, Documents, and CAD** data and performed **CAD scanning** using **WBMFF** for a MedTech client.
- Tech Stack:** Python, SQL, Oracle, ETL, WBM Loader, WBMFF, PTC Windchill, Azure DevOps, QuickBase.

Banking Application | [GitHub](#)

- Engineered a secure **Banking Application** using **Spring Boot** with account creation, deposits, withdrawals, and balance management — implementing DTO pattern, JPA, robust error handling and data validation for high reliability.
- Tech Stack:** Spring Boot, Java, REST APIs, MySQL, JPA, MVC Architecture, DTO Pattern.

Experience

Kalypso: A Rockwell Automation Business

Pune, India

Graduate Engineer Trainee (GET) – ETL Developer, PTC Windchill Data Migration

Aug 2025 – Present

- Executing end-to-end **Data Migration** projects on **PTC Windchill PLM** — designing and running **ETL workflows** using **Python, SQL, and WBM Loader** to migrate enterprise product data from legacy systems with full integrity and traceability.
- Supported data loading and validation for a MedTech client's Windchill migration, working with Parts, Documents, and CAD data using **WBM**, performing **CAD scanning** with **WBMFF**, and participating in **migration rehearsals** to ensure production readiness.
- Authoring **Python** automation scripts for data validation, field-level mapping, and exception reporting — improving migration accuracy and significantly accelerating delivery cycles.
- Retrieved and managed data mapping files from **QuickBase** and tracked migration tasks in **Azure DevOps**, collaborating with cross-functional teams to resolve data quality issues.

Into Hundred Software Pvt Ltd

Pune, India

Java Developer Intern

April 2024 – June 2024

- Developed and optimized scalable **Java**-based web applications using **Spring Boot**, significantly enhancing backend performance and reducing API response times.
- Refactored and maintained existing codebases, improving readability and maintainability while reducing debugging time and technical debt.

Hacktoberfest 2022 and 2023

Online

Open Source Contributor

Oct 2022, Oct 2023

- Completed pull requests and resolved tracked issues across open-source repositories, improving functionality and performance of community-driven projects.

Education

DY Patil College of Engineering, Akurdi, Pune (SPPU)

2021 – 2025

B.E. in Computer Science Engineering

CGPA: 9.0 / 10

New Look Central School, Sagwara, Rajasthan

2021

Higher Secondary Education (HSC)

Percentage: 86.2% CBSE

New Look Central School, Sagwara, Rajasthan

2019

Secondary Education (SSC)

Percentage: 93% CBSE

Certifications

- **PTC Certified** Windchill Implementation Practitioner (Sep 2026)
- Claude AI Pro (Udemy)
- SQL Certification
- Java & Spring Boot
- Hackathon Participation

Coursework

- | | |
|--------------------------------------|------------------------------|
| • PLM Software – Windchill | • Computer Networks |
| • Data Structures & Algorithms | • Cloud Computing |
| • Object-Oriented Programming (OOPS) | • Database Management (DBMS) |

Achievements & Interests

- National-level basketball player
- Strength training and fitness
- Music and continuous learning
